

# IEEE Member Masterfile

Each active subscriber is a paid member of IEEE, Institute of Electrical and Electronics Engineers, the world's largest technical professional organization for the advancement of technology. IEEE and its members inspire a global community to innovate for a better tomorrow through its more than 400,000 members in over 160 countries, and its highly cited publications, conferences, technology standards, and professional and educational activities. IEEE is the trusted "voice" for engineering, computing, and technology information around the globe.

## DESCRIPTION

Market directly to the world's leading technology decision-makers from engineers to computer professionals, the highest concentration of senior technology and engineering decision-makers can be found only in the Institute of Electrical and Electronics Engineers - IEEE Member Masterfile. Each active subscriber is a paid member of IEEE, Institute of Electrical and Electronics Engineers, the world's largest technical professional organization for the advancement of technology. IEEE is the top choice for engineering professionals.

IEEE is the leading professional association for the advancement of technology. With more than 400,000 members in more than 160 countries, IEEE is the world's largest technical professional society. Through its global membership, IEEE is a leading authority on areas ranging from aerospace systems, computers and telecommunications to biomedical engineering, electric power, consumer electronics, and many other technical areas. Members rely on IEEE as a source of technical and professional information, resources and services. To foster an interest in the engineering profession, IEEE also serves student members in colleges and universities around the world, advocates for the profession and helps to introduce technology careers to young people worldwide.
